Austria STEM Initiative – Empowering Indian Engineering Graduates For Global Careers - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/austria-stem-initiative-global-pathways/ | Crawled: 2026-10-09T14:09:47.810911+00:00

Austria STEM Initiative: MIET Leads the Way in Global Engineering Education

Model Institute of Engineering and Technology (MIET), Jammu , in collaboration with VFS Education Services and top Austrian technical universities — TU Wien, TU Graz, and TU Leoben — proudly launches the Austria STEM Initiative . This pioneering program empowers MIET engineering graduates and other Indian students to pursue affordable, high-quality master's degrees in Austria with streamlined admissions, global exposure, and clear post-study career pathways.

Why Choose MIET's Austria STEM Initiative?

Pathway to Top Austrian Universities

Through MIET's partnership, students gain fast-track access to prestigious universities such as TU Wien, TU Graz, and TU Leoben across emerging STEM domains including Data Science, AI, Civil, Electrical, Mechanical, and Materials Engineering.

Fast-Track Admission Process

MIET students benefit from VFS-managed processing , ensuring conditional offers within 7–10 working days and verified documentation directly through MIET's campus helpdesk.

Affordable European Education

Tuition fees start at approximately €750 per semester , with multiple scholarship options guided by MIET and VFS to make quality education globally accessible.

Career-Focused Outcomes

The Austria STEM Initiative integrates industry internships and hands-on learning, helping MIET graduates secure employment opportunities in Europe within 6 months of completing their master's.

Immigration & Work Opportunities

Graduates can seamlessly transition into Austria's Red-White-Red or EU Blue Card pathways, unlocking long-term professional and residency benefits in Europe.

MIET–VFS Collaboration at Work

A dedicated MIET on-campus helpdesk supports every applicant through counselling, document verification, and visa facilitation, ensuring a smooth and transparent process.

Implementation Framework

- Phase 1: Awareness sessions and academic mapping led by MIET faculty.

- Phase 2: Application processing through the VFS helpdesk and MIET nodal verification.

- Phase 3: University coordination for credit transfers and bridge courses.

- Phase 4: Pre-departure orientation and alumni mentorship led by MIET.

Mapped Academic Pathways

MIET Program Austrian Master's Programs Partner University

B.Tech – CSE Computer Science, Data Science, Artificial Intelligence & Machine Learning TU Graz/TU Wien

B.Tech – Electrical Biomedical Engineering, Smart Grid Systems TU Graz

B.Tech – ECE Embedded Systems, Robotics, Industrial Automation TU Leoben/ TU Graz

B.Tech – Mechanical Materials Science, Automotive Engineering TU Leoben

B.Tech – Civil Digital Civil Engineering, Geoinformation Systems TU Wien

M.Tech / ME Advanced Research & Specialist Master's Programs All Partner Universities

How to Apply via MIET

- Review program mapping and eligibility criteria at MIET.

- Prepare required documents: transcripts, degree certificate, passport, CV, SOP, LORs.

- Submit your application through the VFS Digital Portal or .

- Attend MIET’s counselling and document verification sessions.

- Receive a conditional offer and apply for your visa with VFS support.

Important Deadlines: March 2026 Intake: Apply by 30 September 2025 October 2026 Intake: Apply by 31 March 2026

FAQs

Start Your Global Journey with MIET

MIET Jammu is redefining international education through the Austria STEM Initiative — bringing world-class European master’s programs within reach of every deserving student. Limited seats available! Apply early for priority processing. Contact: | Visit the MIET Austria STEM Helpdesk today.

HR MIET - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/careers/ | Crawled: 2026-10-09T14:09:47.810911+00:00

Careers @ MIET

Model Institute of Engineering and Technology (MIET) is the most preferred employer in the private sector in Higher Technical Education. We are an equal opportunity employer providing a highly competitive benefits and rewards package. The Institute is committed to supporting the faculty members in all manners possible in pursuit of common goals. Our faculty comprises high achievers from diverse backgrounds and experiences creating a melting-pot of ideas, inspiration, and high achievement.

Apply Now

MIET invites applications from committed individuals desirous of working in a dynamic and open work culture which values academic brilliance, innovation and the ability to go the extra mile. Please send your resume to for faculty positions at all levels and departments. Candidates with proven research credentials shall be given preference.

Work Benefits

The following work benefits are provided to all the staff members in the organization:

- Free Transport : All employees can avail the free Bus Facility for commuting to the MIET Campus from MIER BC Road.

- Contributory Provident Fund : All employees are covered under C.P.F. Scheme adopted by the Institution. MIET contributes a sum as per the norms towards the Employee’s share of Provident Fund each month.

- Accidental Insurance : All employees are covered under accidental insurance policy adopted by the College for the Welfare of employees.

- Paid Vacation and Holidays : Paid vacation of 40 days in summer and 7 Days in Winters are time off work provided to the employees as a benefit.

- Career Progression and Faculty Development Programme : MIET provides ample career advancement opportunity to its employee by supporting them financially for pursuing higher education. The institution puts a lot of effort on research and significant financial incentives are in place for carrying out research. Apart from this, the Institution recognizes the performance of the faculty through annual performance appraisals done transparently through award-winning analytics framework, Performance Insight 360.

- Advanced Mentoring Programme: is a Leadership Development initiative involving year-long mentoring of selected faculty members to groom them for leadership positions. The faculty members are provided mentoring and coaching by proven experts/leaders in the domain.

Celebrating Success: Apurva Mishra Secures Placement at CBC eClerx

- March 20, 2026

- Student Placement , Student Resources , Student Success

We are proud to share an exciting achievement from our Computer Science & Engineering (CSE) department. Apurva Mishra has successfully secured a placement at CBC eClerx, marking a significant milestone in her academic journey.

Apurva's accomplishment reflects her dedication, consistent efforts, and strong technical foundation developed throughout her time in the CSE program. Her journey is a testament to the hard work and perseverance required to transition from campus life to the corporate world.

The placement at CBC eClerx not only highlights Apurva's capabilities but also showcases the quality of talent nurtured within our institution. Opportunities like these reinforce our commitment to preparing students for real-world challenges and equipping them with the skills needed to thrive in dynamic professional environments.

As Apurva embarks on this new chapter, we are confident that she will continue to excel, grow, and make meaningful contributions in her field. Her success serves as an inspiration to fellow students aspiring to achieve similar milestones.

We extend our heartfelt congratulations to Apurva Mishra and wish her continued success and a bright future ahead.

Confederation of Indian Industry Branch

Overview

MIET is an institutional member of the Confederation of Indian Industry (CII), the premier body for industries in the country. This gives MIET access to large corporations and industries for networking and creating placement and internship opportunities for the students. CII forum offers a wide range of opportunities for students and faculty to develop their skills further by participating in the rich spectrum of CII professional events throughout the year. MIET faculty also participates actively in CII forums and activities in the State of J&K.

CII J&K State Annual Session 2016

Prof. P.N. Sharma along with Mr. Sahil Sawhney attended CII J&K State Annual Session for the year 2015–16 followed by a Session on "Sustainable Infrastructure–A Key Enabler" on 19th Feb. 2016 at Hotel Fortune Inn Riviera, Jammu. MIET is an institutional member of CII and the MIET School of Management is an active participant in all CII events and sessions. The team from MIET provided valuable inputs and feedback and participated in the selection process of the Chairman and Vice Chairman of the CII, J&K Chapter.

Github - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/github-industry-linkage/ | Crawled: 2026-10-09T14:09:47.810911+00:00

GitHub

Overview

In an endeavour to strengthen academia–industry collaboration and promote modern software development practices, MIET Jammu has established an academic–industry linkage with GitHub, the world's leading platform for code hosting, version control, and collaborative software development. This collaboration aims to equip students with industry-relevant skills in coding, collaboration, open-source development, and DevOps practices, aligning academic learning with real-world software engineering workflows.

The partnership supports experiential and project-based learning by integrating industry-standard development tools into the academic ecosystem.

Programs Offered

Under this collaboration, MIET students gain access to GitHub's development ecosystem and learning resources, enabling hands-on experience in version control using Git, collaborative coding, repository management, open-source contribution, CI/CD workflows, and project documentation. Students are encouraged to build, manage, and showcase real-world projects using GitHub as a professional development platform.

The programs emphasize project-based learning, team collaboration, and real-world development practices, allowing students to work on individual and group projects, participate in open-source initiatives, and adopt industry-standard software development methodologies used across global technology organizations.

Learning Outcomes

The GitHub collaboration aims to bridge the gap between academic programming knowledge and industry software development practices by developing practical coding, collaboration, and problem-solving skills. Students gain experience in managing real-world codebases, collaborating in teams, and maintaining professional project portfolios.

Through this initiative, students enhance their employability, readiness for internships, higher education, and software development careers by showcasing verified projects and contributions. The collaboration reinforces outcome-based education, innovation, and prepares students to thrive in modern, collaborative, and agile development environmen

IBM Skill Build - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/ibm-skillbuild-industry-linkage/ | Crawled: 2026-10-09T14:09:47.810911+00:00

IBM SkillBuild

Overview

In an endeavour to strengthen academia–industry collaboration and promote digital skill development, MIET Jammu has established an academic–industry linkage with IBM SkillBuild, a global digital learning initiative by IBM. This collaboration aims to empower students with in-demand technical and professional skills aligned with emerging industry requirements, thereby enhancing employability and career readiness.

The partnership supports the integration of industry-driven learning resources into the academic ecosystem, enabling students to gain exposure to globally relevant technologies and workplace competencies.

Programs Offered

Under this collaboration, MIET students gain access to IBM SkillBuild learning pathways covering a wide range of domains such as Artificial Intelligence, Data Science, Cloud Computing, Cybersecurity, Software Development, Blockchain, Internet of Things (IoT), and Digital Literacy. The programs are designed to cater to learners at different levels, from foundational concepts to advanced skill development.

The learning model emphasizes self-paced, experiential, and project-based learning, incorporating interactive modules, real-world case studies, hands-on activities, and assessments aligned with industry standards. In addition to technical skills, IBM SkillBuild also focuses on developing professional and workplace skills such as critical thinking, problem-solving, collaboration, and communication

Learning Outcomes

The IBM SkillBuild collaboration aims to bridge the gap between academic knowledge and industry expectations by equipping students with industry-relevant technical competencies and professional skills. Students earn IBM digital badges and certificates, validating their skills and enhancing their academic and professional profiles.

Through this initiative, students improve their employability, readiness for internships, higher education, and technology-driven careers. The collaboration reinforces outcome-based education, continuous upskilling, and prepares students to adapt and succeed in a rapidly evolving global digital economy.

Infosys Springboard

Overview

In an endeavour to strengthen academia–industry collaboration and promote digital skill development, MIET Jammu has established an academic–industry linkage with Infosys Springboard, a digital learning initiative by Infosys. This collaboration aims to empower students with industry-relevant technical and professional skills, supporting employability, career readiness, and lifelong learning in a rapidly evolving digital economy.

The partnership enables MIET to integrate industry-driven learning resources into its academic framework, aligning institutional learning outcomes with current and emerging industry requirements.

Programs Offered

Through this collaboration, MIET students gain access to a wide range of Infosys Springboard learning programs across domains such as Artificial Intelligence, Data Science, Machine Learning, Cloud Computing, Cybersecurity, Programming, Software Development, Digital Technologies, and Professional Skills. The programs are designed to cater to learners at various stages, from foundational concepts to advanced industry-oriented skills.

The learning model emphasizes self-paced and experiential learning, incorporating interactive modules, video-based instruction, hands-on exercises, real-world case studies, and assessments. In addition to technical skills, Infosys Springboard also focuses on developing workplace and life skills including communication, problem-solving, critical thinking, and collaboration.

Learning Outcomes

The Infosys Springboard collaboration aims to bridge the gap between academic learning and industry expectations by equipping students with industry-aligned technical competencies and professional skills. Students earn digital certificates and credentials that validate their learning and enhance their academic and professional profiles.

Through this initiative, students improve their employability, readiness for internships, higher education, and technology-driven careers. The collaboration reinforces outcome-based education, continuous upskilling, and MIET's commitment to developing industry-ready graduates capable of adapting to future workforce demands.

- March 18, 2026

- Student Placement , Student Resources , Student Success

The Model Institute of Engineering and Technology (MIET), Jammu, proudly congratulates BBA students Ridham Sharma and Aditya Abrol on securing placements at Ditto Insurance. This achievement reflects their dedication, professional skills, and the strong academic foundation provided by the institute.

Their success highlights the emphasis MIET places on holistic development, industry exposure, and career-oriented learning. Both students have demonstrated commitment, adaptability, and the ability to meet industry expectations, making them well-prepared for the professional world.

MIET extends its heartfelt congratulations and best wishes to Ridham Sharma and Aditya Abrol as they begin their professional journey with Ditto Insurance. Their accomplishment serves as an inspiration for fellow students to strive for excellence and seize emerging career opportunities.

The Model Institute of Engineering and Technology (MIET), Jammu, proudly celebrates the successful placement of seven Civil Engineering students—Vanshika Gupta, Zufishan Khan, Aditya Sharma, Gourav Chib, Piyush Padha, Rajnish Sharma, and Laksh Sharma—at CEMtics. This achievement reflects the institute's unwavering commitment to academic excellence, technical proficiency, and holistic professional development.

The students have demonstrated consistent hard work, determination, and industry readiness throughout their academic journey, supported by MIET's strong academic ecosystem and practical learning approach. Their success highlights both individual dedication and the institute's focus on preparing students for real-world challenges.

This milestone not only reinforces the quality of education and training imparted at MIET but also serves as an inspiration for fellow students to strive for excellence and achieve similar success in their careers.

Mongodb - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/mongodb-industry-linkage/ | Crawled: 2026-10-09T14:09:47.810911+00:00

MongoDB

Overview

In an endeavour to strengthen academia–industry collaboration in the domain of modern database technologies and application development, MIET Jammu has established an industry–academia linkage with MongoDB, a leading global provider of NoSQL database and modern data platform solutions. This collaboration aims to equip students with industry-relevant knowledge and skills in contemporary data management and application development, aligned with current industry practices.

The partnership supports the integration of modern database concepts into the academic ecosystem, enabling students to understand real-world data challenges and scalable application architectures used by enterprises worldwide.

Programs Offered

Under this collaboration, MIET students gain exposure to MongoDB's learning ecosystem and database technologies, covering key areas such as NoSQL Databases, MongoDB Architecture, Data Modeling, CRUD Operations, Indexing, Aggregation Framework, API Integration, and Cloud-based Database Management. The programs focus on building a strong foundation in modern, flexible, and scalable data solutions.

The learning approach emphasizes hands-on, project-based learning, allowing students to design, build, and manage real-world applications using MongoDB. The programs align with industry use cases across domains such as web applications, mobile applications, fintech, e-commerce, analytics, and cloud-native systems.

Learning Outcomes

The MongoDB collaboration aims to bridge the gap between academic database concepts and industry data practices by developing practical skills in NoSQL databases and modern application development. Students gain the ability to work with unstructured and semi-structured data, design efficient data models, and integrate databases with real-world applications.

Through this initiative, students enhance their employability, readiness for internships, higher education, and careers in software development, full-stack development, data engineering, and cloud-based application development. The collaboration reinforces outcome-based education, continuous upskilling, and MIET's commitment to preparing industry-ready professionals for a data-driven digital economy.

Oracle Academy - Model Institute Of Engineering And Technology

Source: https://mietjmu.in/oracle-academy-industry-linkage/ | Crawled: 2026-10-09T14:09:47.810911+00:00

Oracle Academy

Overview

In an endeavour to strengthen academia–industry collaboration and enhance technology-focused education, MIET Jammu has established an academic–industry linkage with Oracle Academy, a global education initiative by Oracle. This collaboration aims to equip students with industry-relevant knowledge and practical skills in database technologies, cloud computing, programming, and enterprise systems, aligning academic learning with current and emerging industry needs.

The partnership enables MIET to integrate globally recognized Oracle learning resources into its academic ecosystem, supporting outcome-based education and improving students' career readiness.

Programs Offered

Under this collaboration, MIET students gain access to Oracle Academy curriculum and learning resources across key domains such as Database Management Systems, SQL, Java Programming, Oracle Cloud Infrastructure (OCI), Data Analytics, Application Development, and emerging enterprise technologies. The programs are designed to provide both foundational and advanced knowledge relevant to modern IT and software development roles.

The learning framework emphasizes conceptual clarity combined with hands-on practice, including lab-based learning, real-world use cases, guided exercises, and project-oriented modules. These programs help students understand enterprise-grade technologies and industry-standard tools used in real-world organizational environments.

Learning Outcomes

The Oracle Academy collaboration aims to bridge the gap between academic concepts and industry practices by developing core technical competencies and problem-solving skills among students. Learners gain practical exposure to enterprise technologies, enhance their programming and database skills, and build a strong foundation for advanced certifications and professional roles.

Through this initiative, students improve their employability, readiness for internships, higher education, and careers in IT, software development, cloud computing, and enterprise solutions. The collaboration reinforces continuous upskilling, digital transformation, and MIET’s commitment to nurturing industry-ready professionals equipped with globally relevant skills.

Palo Alto Networks

Overview

In an endeavour to strengthen academia–industry collaboration in the field of cybersecurity and network security, MIET Jammu has established an industry–academia linkage with Palo Alto Networks, a global leader in cybersecurity solutions. This collaboration aims to equip students with industry-relevant knowledge and practical skills in advanced cybersecurity technologies, addressing the growing demand for skilled professionals in the digital security domain.

The partnership supports the integration of globally recognized cybersecurity learning resources into the academic ecosystem, fostering awareness, technical competence, and industry readiness among students.

Programs Offered

Under this collaboration, MIET students gain access to industry-aligned cybersecurity learning programs covering key areas such as network security, cloud security, threat prevention, security operations, firewall technologies, and cyber risk management. The programs are designed to introduce students to real-world cybersecurity challenges and industry best practices.

The learning framework emphasizes conceptual understanding along with practical exposure through structured modules, hands-on labs, simulations, and case-based learning. These programs align academic learning with current cybersecurity standards and evolving industry requirements.

Learning Outcomes

The Palo Alto Networks collaboration aims to bridge the gap between academic knowledge and industry expectations by developing core cybersecurity competencies among students. Learners gain practical insights into modern security architectures, threat landscapes, and defense mechanisms, enhancing their problem-solving and analytical capabilities.

Through this initiative, students improve their employability, readiness for internships, higher studies, and professional roles in cybersecurity and allied domains. The collaboration reinforces outcome-based education, continuous upskilling, and prepares students for careers in a rapidly evolving global cybersecurity ecosystem.

Snowflake

Overview

In an endeavour to strengthen academia–industry collaboration in the domain of modern data platforms and cloud-based analytics, MIET Jammu has established an industry–academia linkage with Snowflake, a global leader in cloud data platform solutions. This collaboration aims to equip students with industry-relevant knowledge and skills in data management, analytics, and cloud-native data architectures, aligning academic learning with contemporary industry requirements.

The partnership supports the integration of advanced data technologies into the academic ecosystem, enabling students to understand real-world data challenges and enterprise-scale data solutions.

Programs Offered

Under this collaboration, MIET students gain exposure to Snowflake's cloud data platform and learning ecosystem, covering key areas such as Data Warehousing, Cloud Data Management, Data Analytics, SQL, Data Engineering, Data Sharing, and Data Governance. The programs focus on building a strong foundation in modern data architectures and cloud-based data workflows.

The learning approach emphasizes hands-on, project-based, and experiential learning, allowing students to work with real-world datasets, perform analytical queries, and understand data integration and optimization techniques. The programs align with current industry practices across sectors such as IT services, finance, healthcare, retail, and data-driven enterprises.

Learning Outcomes

The Snowflake collaboration aims to bridge the gap between academic concepts and industry data practices by developing practical data analytics and cloud data skills among students. Learners gain proficiency in working with modern cloud data platforms, querying large datasets, and understanding scalable data architectures.

Through this initiative, students enhance their employability, readiness for internships, higher education, and careers in data analytics, data engineering, cloud computing, and business intelligence. The collaboration reinforces outcome-based education, continuous upskilling, and MIET's commitment to preparing industry-ready professionals for the data-driven global economy

Training & Placement

MIET Placements - At a Glance

The Training & Placement cell at MIET is dedicated to facilitating the placements and internships of pre-final and final-year students. The Cell has been highly successful in generating employability for students in the region, achieving an excellent success rate. In the 2023-2024 academic years, MIET's placement season was, with over 437 offer letters extended to students. More than 125 companies hired 395 students, with 70 students receiving more than one offer. The median package was 4.0 LPA, and the highest salary package offered was 18 LPA. MIET's placement partners include industry leaders such as Infineon Technologies, Global Signs, Accenture, Cognizant, Wipro, Infosys, TCS, Harman Connected Services, Hitachi, Quark, Haxaware Technologies, Translab Technologies, Cloud Analogy, Zenoti, ADP Inc., Lido Learning, ICICI Bank, HDFC Bank, Byjus, Planetspark, Extramarks, among others. These partnerships provide students with a range of opportunities to start their careers with top-tier companies in their fields.

Beyond placements, MIET emphasizes an immersive and hybrid learning experience. Students benefit from paid Coursera learning paths, competency-building programs, in-house and industrial internships, value-added courses, and short-term training for skill enhancement beyond the curriculum. These initiatives equip students with industry-relevant skills, ensuring they remain competitive in the ever-evolving job market. The Training & Placement Cell remains committed to bridging the gap between academics and industry, empowering students to achieve their professional aspirations.

Our Prominent Recruiters

Our Methodology

At MIET, the Training and Placement (T&P) Cell plays a pivotal role in shaping students' careers by guiding them from academic learning to professional success. The Cell serves as a bridge between students and the industry, providing personalized mentorship, skill-building workshops, and placement readiness programs. From resume building and interview preparation to career counseling and internship opportunities, the T&P Cell ensures that every student is well-equipped to make informed decisions and pursue a fulfilling career path. Our dedicated team works tirelessly to bring clarity to student aspirations—turning confusion into confidence and potential into placement.

Unity

Overview

In an endeavour to strengthen academia–industry collaboration in the domain of immersive and interactive technologies, MIET Jammu has established an academic–industry linkage with Unity, a leading global real-time 3D development platform. This collaboration aims to equip students with future-ready skills in game development, augmented reality (AR), virtual reality (VR), mixed reality (MR), and real-time simulation technologies, aligning academic learning with rapidly evolving industry demands.

The partnership supports experiential learning and innovation by integrating industry-standard tools and platforms into the academic ecosystem, thereby fostering creativity, technical proficiency, and industry readiness among students.

Programs Offered

Under this initiative, MIET students gain exposure to Unity's real-time 3D development ecosystem, enabling learning across multiple application areas such as game development, AR/VR applications, 3D visualization, digital twins, simulation, and interactive content creation. The programs focus on practical skill development using Unity's development environment, scripting frameworks, and design workflows.

The learning modules emphasize hands-on projects, interactive labs, and project-based learning approaches that allow students to conceptualize, design, develop, and deploy real-time applications. The programs are aligned with emerging industry use cases across gaming, education, healthcare, architecture, automotive, and simulation-based training sectors.

Learning Outcomes

The Unity collaboration aims to develop industry-relevant technical and creative competencies among students by providing practical exposure to real-world development environments. Students acquire skills in real-time 3D development, interactive application design, problem-solving, and digital creativity, enabling them to build deployable projects and portfolios.

Through this initiative, students enhance their employability and entrepreneurial potential in domains such as game development, AR/VR development, simulation engineering, and digital content creation. The collaboration supports outcome-based education, innovation-driven learning, and prepares students for internships, higher studies, startups, and professional careers in the rapidly growing immersive technology industry.
