Model Institute of Engineering & Technology, Jammu

Attendance Rules and Regulations

Note: This document is a compiled reference summary prepared for MIET Jammu (Model Institute of Engineering & Technology, Kot Bhalwal, Jammu). Specific figures and procedures should be verified against the latest official notifications of MIET Jammu and the University of Jammu before being relied upon.

1. Minimum Attendance Requirement

- A student must have a minimum of **75% attendance** in each course (theory, tutorial and practical) in a semester to be eligible to appear in the end-semester examination, in line with AICTE and University of Jammu norms.
- Attendance is calculated course-wise as well as in aggregate; both are monitored by the department.
- Attendance is counted from the date of commencement of classes of the semester, or from the date of admission for newly admitted students.

2. How Attendance is Recorded

- Faculty members mark attendance in every lecture, tutorial and laboratory session through the institute's attendance/ERP system or the attendance register.
- Attendance is consolidated and displayed to students periodically (usually monthly) so that shortages can be corrected in time.
- Students should verify their attendance on the portal/notice board and report any discrepancy to the course teacher within one week.
- Marking attendance on behalf of another student (proxy) is a disciplinary offence for both students.

3. Condonation of Shortage

Attendance	Status
75% and above	Eligible to appear in examinations
Between 65% and 75%	May be considered for condonation by the Principal/competent authority on genuine grounds (illness, bereavement, approved participation) with documents and on payment of the prescribed condonation fee, as permitted by the University
Below 65%	Not eligible; student is detained in the course/semester and must repeat it as per the rules

Condonation is not a right and is granted only in exceptional circumstances. The percentages above should be confirmed against the latest University notification.

4. Leave and Excused Absence

- **Medical leave:** Absence due to illness requires a medical certificate from a registered medical practitioner, submitted to the class coordinator/HOD within a week of rejoining. Prolonged hospitalisation must be informed in advance where possible.
- **Duty leave:** Students officially representing the institute or University in sports, cultural, technical, NSS/NCC or similar events may be granted duty leave on the recommendation of the faculty coordinator and approval of the Principal; this is counted as present.

- **Casual leave:** Applications for personal reasons must be submitted in advance to the HOD. Approval of leave does not automatically condone attendance shortage.
- **Leave on examination/test days:** Not granted except for medical emergencies with documents.

5. Laboratory and Practical Classes

- Attendance in practical classes is compulsory; a missed lab session must be completed in a make-up session with the permission of the lab in-charge, and is counted only if the experiment is completed.
- Failure to meet the attendance requirement in a lab course can lead to being barred from the practical examination.

6. Late Arrival

- Students arriving more than 10 minutes after the commencement of a lecture may be marked absent at the discretion of the faculty.
- Repeated late arrival is brought to the notice of the class coordinator and may attract disciplinary action.

7. Consequences of Shortage

- Students with shortage of attendance are not allowed to fill the examination form or collect the admit card.
- They may be required to repeat the semester/year with the next batch.
- Parents/guardians are informed of persistent shortage through letters, messages or parent-teacher meetings.

8. Monitoring and Responsibility

Class coordinators and mentors review attendance regularly and counsel students who are at risk. Ultimately, it is the student's responsibility to maintain the required attendance and to track their own record.
