Model Institute of Engineering & Technology (MIET), Jammu

Expanded College Information Reference • Compiled 14 October 2026

Purpose. This expanded reference is intended for student assistance and a college RAG/knowledge-base system. It combines the supplied 3-page college-information PDF with information found on MIET's public website and its published 2025 admission brochure. Details that are not publicly verified are marked as unavailable rather than guessed.

Important: Public website content can change. For fees, placements, staff roles, branch availability and official processes, confirm with the institute before making decisions. Internal staff numbers, student roll numbers, personal contact details and non-public student records are not included.

1. Institute overview

Item	Publicly available information
Official name	Model Institute of Engineering & Technology (MIET), Jammu
Campus address	Kot Bhalwal, Jammu, Jammu & Kashmir – 181122, India
Official website	https://www.mietjammu.ac.in/ (also listed: https://mietjmu.ac.in/)
General contact	info@mietjammu.in • 9018312123 • 0191-2623116
Admissions contact	7889395696 (as shown on the official website)
Director	Prof. Ankur Gupta (official Governing Body / Director profile pages)
Institutional status	Private institution within the MIER Group; the current website describes MIET as autonomous and curriculum/programmes as subject to relevant approvals
Affiliation / approvals	Supplied PDF states University of Jammu affiliation and AICTE approval. Check current programme-specific approval and autonomous status on official notifications.
Accreditation	Supplied PDF states NAAC A Grade and NBA accreditation for selected programmes; check current validity and programme scope in official accreditation documents.

The supplied PDF says third-party sources differ on establishment year (1996–1999) and estimates campus area at about 45 acres. These are not treated as confirmed official facts in this expanded reference.

2. Leadership and administration

Role / office	Name or status
Director, MIET	Prof. Ankur Gupta
General Manager, Strategic Initiatives	Prof. Sahil Sawhney (official website profile)
Dean, Training & Placements	Prof. B. C. Sharma was identified in an MIET event page; verify the current appointment before relying on it.
Director Academics / other senior offices	Names and current designations should be checked against the latest official management/leadership directory.
Fees / Accounts in-charge	A current named in-charge was not verifiably published in the sources checked. Contact the main office and ask for the Accounts/Fees office.
Branch-wise HoDs / coordinators	Use the live official faculty/department directory; staff assignments may change by academic year.

Staff ID / employee number and student number/roll number are not published here. These are internal identifiers and should only be populated from an authorized internal directory or student-information system, not guessed or scraped.

3. Programmes and branches

The official website lists the following B.Tech intake figures in its current course navigation; these are website-listed seats, not a guarantee of final sanctioned intake for every session:

Programme / branch	Website-listed seats
Civil Engineering	60
Computer Science & Engineering	180
Electronics & Communication Engineering	30
Electrical Engineering	30
CSE (Artificial Intelligence & Machine Learning)	60
CSE (Cyber Security)	60

The 2025 admission brochure also lists MBA, M.Tech (CSE), MCA, BCA (Hons.), BBA (Hons.), BBA-BFSI (Hons.), B.Com (Hons.), BBA-LLB (Hons.), and LLB (Hons.). Programme offerings can change; consult the current admissions page/brochure. The original supplied PDF also mentions IT and Mechanical Engineering in department lists, but those should be verified against the current programme catalogue.

4. Fees — published 2025–26 brochure

The official 2025 admission brochure lists the following annual fees. They are included as a historical reference for academic year 2025–26, not as a confirmed 2026–27 fee schedule. Additional charges, scholarships, transport/hostel, registration, uniform, refunds and instalment rules may be separate.

Programme	Annual fee (■), 2025–26 brochure
B.Tech (CSE, CSE AI/ML, CSE Cyber Security, EE, ECE & Civil)	1,09,100
MBA	1,04,600
BBA (Hons.)	84,700
BBA-BFSI (Hons.)	84,700
B.Com (Hons.)	84,700
BCA (Hons.)	84,700
MCA	78,700
M.Tech (CSE)	85,500
BBA-LLB (Hons.)	90,200
LLB (Hons.)	90,200

For the current fee, ask Accounts/Admissions for the latest signed fee circular with course-wise annual fee, one-time charges, hostel/transport rates, instalment dates, late fees, scholarship eligibility and refund policy.

5. Placement information

The official placement page contains two different summary blocks. They are preserved separately here because the page does not make clear whether they use different scopes or reporting methods.

Published block	Figures shown on the official placement page
MIET Placements – At a Glance (2022–23 & 2023–24)	Over 437 offer letters; more than 125 companies hired 400+ students; 70 students received more than one offer; median package ■4.0 LPA; highest package ■18 LPA.
B.Tech placement statistics (2023–24)	80% of students placed; 250 students placed; 250+ offers; highest CTC ■12.45 LPA; average CTC ■4.2 LPA.
MBA placement statistics (2023–24)	100% of students placed; 88 offers; highest CTC ■9 LPA; median CTC ■4 LPA.

Important data-quality note: The ■18 LPA headline figure and the ■12.45 LPA B.Tech table figure are both shown on the public placement page. Do not merge them into one statistic. Ask the Training & Placement Cell for the latest batch-wise placement report and its definitions (eligible students, students placed, offers, unique students, median/average, and highest

CTC).

Recruiters listed on MIET's public website include Vedanta Resources, Infineon Technologies, XenonStack, Hexaware Technologies, Visvero, H&R; Global / H&R; Block, TCS, Glide Embedded Systems, Motilal Oswal, Capgemini, Infosys, Harman Connected Services, ADP, Indus Towers, Vodafone, PlanetSpark, ITC, Kotak Mahindra Bank, ICICI Bank, HDFC Bank, Indigo Paints and Byju's. Recruiter lists indicate reported engagement, not a guarantee that every company recruited every year or every branch.

Individual placement records: A complete, current, public list of every placed student with name, branch, batch, company and package was not found in the sources checked. The public site includes alumni/student success stories and event announcements, but these are not a comprehensive placement register. Do not invent names, packages or batch percentages.

6. Staff, faculty and department information

MIET's public faculty directory provides names and academic designations by department. Examples visible on the directory include Prof. Ankur Gupta (CSE), Prof. Devanand (CSE), and multiple faculty in Civil Engineering, Management, Commerce, Computer Applications and Law. Because staff directories can change, use the official Faculty page as the live source rather than treating this reference as a complete staff roster.

For a full department-wise directory, capture only publicly listed professional details: name, designation, department, official institutional email (where published), office/role, profile URL, and last-checked date. Do not include personal phone numbers or employee IDs unless explicitly published for institutional contact and necessary.

7. Student services and campus resources

Area	Publicly described services / notes
Student performance support	Performance Insight 360 (PI 360) is described by MIET as a performance-tracking, guidance and counselling platform.
Student email	Official @mietjammu.in student email accounts are described on the Student Services page.
Guidance and counselling	Faculty mentoring and automated guidance/counselling are described by MIET.
Campus facilities	Official site describes cafeteria, laboratories, library, computer centre, hostels, transport, sports and student activities; verify availability and current charges directly.
Clubs and events	Student clubs and events include technical, cultural, sports, literary and entrepreneurship activities; SAMMILAN is promoted as a major annual fest.
NSS	The institute's NSS unit is named "Prayaas"; the website describes volunteer and community outreach activities.
Scholarships	Official event pages describe merit-based scholarships and support for eligible students. Current criteria, amounts and deadlines must be obtained from the latest scholarship notice.

8. Admissions and academic administration

The supplied PDF describes admissions through JEE (Main) / JKCET and the applicable counselling authority for engineering, with eligibility and entrance routes for postgraduate programmes. Because MIET now publishes updated brochures and programme offerings, use the current academic-year admission notice for eligibility, entrance route, seat intake, lateral entry, required documents and deadlines.

Useful documents to keep in the knowledge base: latest admission brochure; current fee circular; academic calendar; examination and attendance rules; student handbook; scholarship notice; anti-ragging and grievance procedures; refund policy; hostel and transport rules; current department/faculty directory; and the latest approved placement report.

9. Official source directory

MIET main website: https://www.mietjammu.ac.in/

Governing Body / leadership: https://www.mietjammu.ac.in/index.php/pages/governing-body

Faculty directory: https://mietjammu.ac.in/index.php/faculty

Placement Cell and published statistics: https://mietjmu.ac.in/index.php/placements

2025 admission brochure (fees and programme details): https://mietjmu.in/downloads/brochure_2025.pdf

Student services: https://mietjammu.ac.in/index.php/students

Downloads (brochures, newsletters, policies): https://www.mietjammu.ac.in/index.php/downloads

Alumni: https://www.mietjammu.ac.in/index.php/alumni

10. Missing information to request from MIET for a complete internal knowledge base

• Current 2026–27 fee circular, course-wise and category-wise, with all one-time and recurring charges.

• Official current management and administrative directory: role, name, department, office extension and official email.

• Accounts/Fees in-charge name and official contact route; payment modes, instalment schedule, refund/late-fee rules.

• Current department-wise HoDs, faculty list and programme coordinators.

• Latest placement report by batch and branch: eligible cohort, unique students placed, offers, placement percentage, median/average/highest CTC, internship data and reporting date.

• Publicly approved placement success stories with student consent, company, role, batch and package if the institute publishes it.

• Latest sanctioned intake, programme approvals/accreditation validity, admission eligibility, academic calendar and student policies.

• Hostel/transport fees, route schedules, scholarship schemes and eligibility, grievance contacts, exam/attendance rules and emergency contacts.

Privacy and reliability rule for the RAG system: Keep internal student IDs, staff IDs, grades, fee balances, phone numbers and personal records in an access-controlled system. Public answers should only expose approved public information. If a value is absent or conflicting, the assistant should say it could not verify it and direct the user to the relevant office.
